Dane Bailey is a Floodplain Hazard Specialist for the Kansas Department of Agriculture - Division of Water Resources. He has a Bachelor's and a Master's degree in Geography from the University of Kansas and is a Certified Floodplain Manager. Professionally Dane has focused on cartography, soil science, fluvial geomorphology, GIS, environmental science and riverine flooding. Dane has worked in the private sector as a cartographer and environmental science consultant for a decade and has been employed in the public sector by The University of Kansas, the Kansas Geological Survey, and the Kansas Division of Water Resources.

Mr. Bond joined the City of Lawrence in April of 2006. He is currently the City's Stormwater Engineer and project manager for the environmental remediation of the former Farmland Industries Nitrogen Plant. He was responsible for the certification of the Kansas River Levee as well as the major rehabilitation project for Bowersock Dam. Prior to his employment with the City of Lawrence he worked for the Kansas Department of Transportation in the Bridge Design Section. Mr. Bond graduated from the University of Kansas in 1991 with a BS in Civil Engineering and a BS in Architectural Engineering.

Michael Bremer serves as the Director of Operations at CoreLogic Flood Services. He has spent more than 15 years in a variety of operational roles related to ensuring compliance with NFIP policies and regulations. Mr. Bremer holds a B.S. in Geography from Texas State University and has been a Nationally Certified Floodplain Manager for over 13 years. Mr. Bremer assists the NFDA with various initiatives and serves as a subject matter expert in the area of technical mapping processes and issues.

Doug has worked at Wilson & Company since 1995, in Salina from 1995 – 2006 and in Kansas City from 2006 – present. Doug graduated from Kansas State University in 1994 with a Bachelors of Science degree in Civil Engineering. Doug's experience has been focused on stormwater management projects including: storm water master planning and improvement design, roadway stream crossing modeling and design, FEMA Map Revisions, levee and dam assessments and design. Doug is a Professional Engineer and Certified Floodplain Manager. Doug and his wife Jenny have two children, Faith (12) and Ben (9).

Hye Jin spent first half of her professional career as a consultant engineer in Orange County, California. She was a Civil Engineer for City of Fullerton, CA for nearly 8 years before coming to Merriam, Kansas as the City Engineer in January 2009. She was appointed as the Floodplain Administrator in July 2012. She administers 5-Year Capital Improvement Program from budgeting to construction for the City of Merriam.

Brian earned a Bachelor of Science degree in Atmospheric Science from the University of Kansas in 1994. For the last 18 years he has worked for the U.S. Geological Survey's Water Resources Division in Utah and Kansas, gaining expertise in the field of water resources data.

Brian currently works in Lawrence and serves as the Data Chief for the USGS's Kansas Water Science Center. He and his team of 20 hydrologists are responsible for monitoring and reporting water levels in the streams, lakes and wells of Kansas. The USGS monitors the water levels at more than 250 locations across Kansas, providing the public and water managers real-time data for flood warning, drought monitoring, water allocations, recreation and other uses.

Cristina Martinez, CFM is the flood technical coordinator for Insurances Services Office, assisting FEMA with administering the Community Rating System Program (CRS). She has 10 years of floodplain management experience and an academic background in civil engineering. Prior to her work with the CRS Program, she worked as the NFIP Coordinator for the State of Colorado and the Floodplain Manager for the City of Boulder, Colorado. Cristina has had unique opportunities to work on floodplain management activities at a national, state local level and is able to bring varying perspectives from this experience.

Ms. Meshek's career has included assisting communities all across Oklahoma in resolving existing flood problems, developing strong floodplain management programs to guide new growth and prevent future flooding, and establishing utility funding mechanisms for the implementation of floodplain management and stormwater quality programs, routine maintenance of drainage systems, and stormwater capital improvements. Most recently, Meshek & Associates was selected by the Oklahoma Water Resources Board (OWRB) as its consulting engineer to implement OWRB's Cooperating Technical Partners (CTP) program and FEMA's RiskMAP initiative statewide; Ms. Meshek serves as its Project Principal.

Ms. Meshek received her B.S. and M.S. in Civil Engineering from Oklahoma State University. She is a registered Professional Engineer in the states of Oklahoma, Texas, Kansas, Missouri, and Arkansas and holds an NCEES Record Certificate.

Rhonda Montgomery is a Program Specialist with the Floodplain Management Branch of the Federal Emergency Management Agency. In her current capacity, Rhonda provides assistance to Regional offices of FEMA in community enrollment, eligibility and compliance with the National Flood Insurance Program. Rhonda also serves as the National Training Coordinator for floodplain management training including updating FEMA's National Training Strategy and development of training modules for local floodplain managers. At the State of Kansas, Rhonda worked with state partners to enhance the state's capability of managing floodplains and directing development to reduce the risk of flooding. Rhonda obtained her Certified Floodplain Manager's designation in October 2000. In May 2006, Rhonda received her Master's in Public Administration from the University of Kansas.

Tom Morey began his floodplain management career with the Kansas Department of Agriculture-Division of Water Resources as the NFIP Specialist in September 2005. He obtained his Certified Floodplain Manager's designation in May 2006. In May 2007 Tom accepted the position of State NFIP Coordinator for the State of Kansas. Tom spends a majority of his time working with property owners, insurance agents, real estate agents and local officials to provide information on the National Flood Insurance Program. Tom also serves as the President of the ASFPM Certification Board of Regents and Chairman of the State Hazard Mitigation Team. Tom has a strong background in education, natural science and public administration. He is a Registered Sanitarian in the State of Kansas. He previously worked for the Kansas Department of Health and Environment and Parks and Wildlife and has over 9 years of experience in State Service.

Dan graduated from KSU with a BS in Wildlife Biology in 1980, then with a MS from KSU in Ecology & Systematics in 1984. He started working for the USFWS in 1984 as a temporary biologist, was converted to permanent full-time in 1983, and began working with the endangered species program in 1984. He serves as the Kansas Field Office's terrestrial endangered species biologist as well as handling most issues related to migratory birds.

Erika Stanley, CFM is the Floodplain Mapping Coordinator at the Kansas Department of Agriculture. Under the Cooperating Technical Partners (CTP) agreement with FEMA, she manages mapping projects throughout Kansas and provides technical assistance and training to local officials on how to use digital flood maps and LIDAR data. Erika holds a Master's of Urban Planning from the University of Kansas and a B.S. in Environmental Science from Haskell Indian Nations University. She is currently serving as the Region 7 Regional Director on the ASFPM Board of Directors.

Cheryl Small is currently the Immediate Past President of the National Flood Determination Association (NFDA) and a member of its Board of Directors. She has participated in the establishment and growth of the NFDA since its inception, and is active in the industry working with various FEMA agencies and trade organizations to promote the NFIP. Cheryl is also Vice President of Operations at CoreLogic Flood Services and has been active in the insurance industry for over 25 years, holding positions in operations management, new product development, sales and marketing. She has been involved with the NFIP since 1984 and was responsible for the Write Your Own (WYO) Flood Program for a leading insurer in the financial market. Cheryl owned a flood determination firm, which was later acquired by GE Capital Corporation in 1994.

Ms. Moldovan-Trujillo has been a licensed insurance agent for 24 years working for Hagan Hamilton Insurance agency as a sales agent, Branch Supervisor and part-time educator. She has achieved the professional designations of Certified Professional Insurance Woman (CPIW) and Accredited Customer Service Representative (ACSR), and is currently studying for the Associates in National Flood Insurance designation. Among Gail's achievements, she has also been awarded Insurance Woman of the year twice, through her local National Association of Insurance Women's (NAIW) Chapter, and ACSR of the year from the Independent Insurance Agents & Brokers of Oregon (IIABO).

Chad is a professional engineer with a Civil Engineering degree from the University of Kansas. His background is in public works, stormwater management and structural engineering. Chad managed the City of Lawrence stormwater program for ten years, where his work included flood control projects, development regulations, floodplain administration and NPDES compliance. He also has several years experience with engineering consulting firms in Kansas, Missouri, North Carolina and Minnesota.

Chad joined the Division of Water Resources in 2010. He and his family live in Douglas County.

Jerry E. Winkley is the owner and operator of ServiceMaster Clean In AWink, South Central Kansas' leading restoration and cleaning business. With five franchises, and ranked in the ServiceMaster Top 100, Jerry and his nearly 100 employees serve throughout South Central Kansas with 5 franchises in Wichita, Hutchinson, Derby and Winfield, Kansas.

Jerry carries numerous trade certifications and has enjoyed teaching Continuing Education since 1993. Over the years, Clean In A Wink has provided continuing education training to over 15,000 attendees including insurance agents & adjusters, REAL Estate professionals, plumbers, nurses, HVAC technicians, and a wide host of other industry professionals. His courses have been approved and used to produce CE courses in nearly all 50 states.

Jerry and his wife, Lisa, have five children and are actively involved in church ministry, music, and teaching.

Mr. Zung received his BS in Geology from the University of Missouri at Rolla and a MS in Water Resources Science from the University of Kansas. Mr. Zung is currently the Water Resources Engineering Program Manager as well as the Hazard Mitigation Program Manager in the Kansas City office of Stantec Consulting Services Inc. He also is the Professional Technical Service contractor STARR Regional Service Center lead for FEMA Region VII. He has 15 years of experience as a hydrologist with a background in hydrologic and hydraulic modeling and water resource management. He is a Project Management Professional and a Certified Floodplain Manager experienced with FEMA's National Flood Insurance Program, Hazard Mitigation Technical Assistance Program, and Technical Assistance and Research Contract for FEMA's Building Sciences Branch. The majority of Mr. Zung's work includes project management of federal projects, performs the completeness check review of certification packages to meet 44CFR 65.10, technical review of floodplain mapping projects, performing hydrologic analyses, hydraulic analyses and GIS mapping for FEMA flood studies, "No-Rise" analyses, dam breach analyses, stormwater management analyses, levee interior drainage analyses,

Floodplain Management, Inc.

Annual Meeting Minutes

September 6, 2012

Ramada Hotel & Convention Center 1400 N. Lorraine St. Hutchinson, Kansas

I. <u>Call to Order:</u>

The meeting of the entire membership was called to order by Chairman Slone at 12:40 p.m. with the following officers present: Don Slone – Chairman, Sam Seeley - Vice-Chairman, Jon Bristor – Treasurer, Mark Vonachen - Secretary, Tom Morey – Kansas State NFIP Coordinator, and the following Regional Directors: Gina Bell – Region 2, and Marcie Weatherly – Region 6. Linda Finger, Region I and Charlene Weiss, Region IV were absent. Region III and Region V Regional Directors are currently vacant.

II. <u>Approval of 2011 Annual Meeting Minutes:</u>

Motion by Chad Bunger to approve the 2011 annual meeting minutes, seconded by Mike Gregory. The motion was approved unanimously.

III. <u>Treasurer's Report:</u>

Slone advised the membership the treasurer's report is found on pages 19-20 of the conference agenda booklet.

Motion by Chad Bunger to approve the treasurer's report as submitted; seconded by Kelly Dixon. The motion was approved unanimously.

IV. <u>Amend the Association's Constitution:</u>

Slone explained to the membership last year we established a constitution as a requirement of becoming a chapter of ASFPM. Since the re-establishment of KAFM in 2004 the Executive Board has had a difficult time filling the current six Regional Director positions. Region III has been the most difficult since the gentleman retired from the City of Hays.

Recently there has been some additional turn-over as persons holding these positions have moved to another region or are no longer in the floodplain management business.

The Executive Board discussed the frequency of vacancies and more importantly the role of the Regional Directors. No clear roles or duties could be established for the Regional Directors that the Executive Board could not fulfill. Therefore, the Executive Board decided to propose an amendment to the Constitution which eliminates the Regional Directors.

With the proposed elimination of the Regional Directors, the Executive Board proposed to add a fifth position to the Executive Board. The position will be called the At-Large Representative. The main duty of this position will be to serve on the Conference Training Committee and be in charge of the training sessions at the annual conference.

The last major change was from an Executive Board to a Board of Directors. Currently the Executive Board consists of the Chairman, Vice-Chairman, Treasurer, and Secretary. Then there are the six Regional Directors. If the proposed changes are approved, the name will change to the Board of Directors. The Board of Directors will consist of Chairman, Vice-Chairman, Treasurer, Secretary, At-Large Representative, and the Ex-Officio Member which is the State NFIP Coordinator.

Along with these three proposed changes there were some other minor changes regarding spelling, grammar, as well as modifications of current job duties.

The proposed changes were sent to the membership for comment in compliance with the current By-Laws. In addition, the changes were placed on the registration table for all members to view.

Motion by Gina Bell to approve the proposed changes to the Constitution as presented by the Executive Board; seconded by Kenny Cook. The motion was approved unanimously.

V. <u>Amend the Association's By-Laws</u>

Slone explained the same changes in the Constitution are found in the $\mbox{\sc By-Laws}.$

Slone advised the membership it was his recommendation to the Executive Board the addition of a fifth member to the Board. One of the major goals of the Association is to provide education and training of its membership. This position will help ensure we receive adequate training and meet the needs of the membership.

Page 15

Motion by Chad Bunger to approve the By-Laws as presented by the Executive Board; seconded by Steve Higgins. The motion was approved unanimously.

VI. <u>Election of Officers</u>

Slone asked if there were any questions on the process of how the nominations and election of officers takes place. There were none. The term for the Board of Directors is one year and runs from annual conference to annual conference. A memo was sent out by Vonachen to the membership asking for nominations to the Board of Directors.

Slone reported he, Seeley, Bristor, and Vonachen are seeking re-election to their current positions. Tonya Richards, of Marion County is seeking election as the At-Large Representative. The membership received a copy of her biography and qualifications.

By unanimous vote, the membership elected all nominees for the 2012-2013 term year.

VII. <u>Installation of Officers</u>

Slone announce to the membership the 2012-2013 KAFM Board of Directors are:

Chairman: Don Slone Vice-Chairman: Sam Seeley Treasurer: Jon Bristor Secretary: Mark Vonachen

At-Large Representative: Tonya Richards

Slone congratulated all Board of Director members and thanked them for their service.

VIII. <u>Special Recognitions</u>

Slone announced to the membership several people who helped make this conference a success. These individuals received a gift from the association for their efforts and are as follows:

Conference Planning Committee:

Mark Vonachen David Goertzen Kenny Cook

Conference Training Committee:

Don Slone Tom Morey

Conference Gift Committee:

Jon Bristor Melinda McCurley

Conference Booklet:

Renee Batchman – presented a plaque for her efforts in creating the conference booklet

Former Regional Directors:

Gina Bell Marcie Weatherly Linda Finger Charlene Weiss

 $\ensuremath{\mathsf{AII}}$ were presented a certificate of appreciation for serving on the KAFM Board.

IX. CFM Recognitions:

Slone announced there are 112 CFM's in the state. Slone read off the names of the newest CFM's. Slone presented the newest CFM's with a pin from ASFPM. The following people have received certification since last year's conference:

Darrell Boger Tom Yah Leif Holliday Chad Voigt

Tonya Richards Roberto Becerril Erika Stanley

Slone congratulated all new CFM's on their achievement.

X. <u>Chairman's State of the Association:</u>

Slone stated the Board of Directors has accomplished many goals this year. The main goal was becoming the $33^{\rm rd}$ official chapter of ASFPM. This was a follow-up to what past Chairman Kelly Dixon started last year. The board had some corrections to make before being accepted as a chapter. We became an official chapter member on 11/11/11.

After becoming a chapter, the board discovered the association should have liability insurance, become incorporated, and begin paying taxes. These items were brought to the board's attention during a chapter call with ASFPM.

The Board of Directors is pleased to announce to the membership KAFM became incorporated on January 12, 2012, obtained liability insurance, and are in compliance with all IRS tax laws.

Special thanks to Bristor and Melinda McCurley to help accomplish these goals.

The Board of Directors recently purchased the domain name KAFM. Therefore, the official website of our organization is www.kafm.org. The old web address of www.ekafm.org will still work. It will re-direct you to kafm.org. This is the second year of having registration of the conference through RegOnline. For the most part it went well. There are still some glitches in the system that the board will work to correct for next year. Slone wished the 10 people taking the CFM exam tomorrow good luck. Slone announced to the membership a member must attend all sessions to get the full eight credit hours for your CFM renewal. If a member leaves early, credit hours will be deducted accordingly. After the conference the certificates will be out on the conference registration table.

XI. Other Business:

The evaluations for the conference will be sent out to the membership approximately one-two weeks after the conference. Please respond to the evaluation so the Board of Directors can make this an even better conference.

Next year's conference is September 4^{th} and 5^{th} in Topeka. This will be the 10^{th} Anniversary Conference since the reestablishment of KAFM in 2004.

The 2014 KAFM Conference will be in Sumner County at the Kansas Star Casino.

Tom Morey announced the CFM exam review will take place from 3:00 p.m. to 6:00 p.m. in Apollo I.

XII Adjourn:

There being no other items brought before the board, **Chad Bunger moved to motion to adjourn; seconded by Steve Higgins.** The motion passed unanimously.

The meeting adjourned at 1:15 p.m.

Respectfully submitted by:

Mak Vorocle

First and foremost the Kansas Association of Floodplain Management, Inc. would like to say thank you to all of its members, the association has grown leaps and bounds over the last ten years and it is because of the hard work and dedication that each of you have for the work that you do for all of the communities that you all serve.

To all of the of our past and present presenters, exhibitors, and sponsors, your support has made this association a well educated group of members. Your support has made this possible year after year.

Here's to another ten years!
