

GOVERNOR JEFF COLYER, M.D.
JACKIE McCLASKEY, SECRETARY OF AGRICULTURE

Training Announcement

Know Your Community's Flood Risk with No Advanced GIS
Hotel at Old Town
830 East First Wichita, KS
September 4, 2018
1:00 p.m. - 5:00 p.m.

The Kansas Department of Agriculture will host a KAFM Pre-Conference Training on using ESRI's **free** ArcReader 10.5 software to view your community's floodplain data and related resources. Custom data packages will be assembled with your community's available flood risk information including LiDAR elevation data. Community officials with limited to no GIS capabilities shouldn't miss this opportunity. This course has been approved for 3.5 hours continued education credit for Certified Floodplain Managers.

Tara Lanzrath from the State of Kansas will provide instruction. Attend this seminar to learn:

- Website Resources for Floodplain Data.
 - ✓ Includes information on the Base Flood Elevation (BFE) Portal.
 - ✓ Includes an overview of online web maps for viewing current effective and current mapping projects.
- Using ArcReader to view your Floodplain and LiDAR Data.
- Determining Base Flood Elevations in a variety of flood risk zones.

Please use the attached form to register for this training. This class is free with KAFM Conference registration. Class size is limited to 15 and will be on a first come basis. **You must register for this class by August 14 in order to provide staff with enough time to prepare the data packages.** A laptop with [ArcReader 10.5](#) installed is required, although we may be able to provide a few spare laptops if enough advance notice is given. (Note: you will also need to sign up for a free ArcGIS account in order to download the free software). An agenda and survey will be sent out prior to the class. Please direct questions and registration forms to:
