

Training Announcement

Utilizing Your Modern DFIRM
DoubleTree by Hilton
Lawrence, KS
September 5, 2017
1:00 p.m. - 5:00 p.m.

The Kansas Department of Agriculture will host a KAFM Pre-Conference Training on using ESRI's ArcMap to view floodplain data and related resources. Community officials should learn about these great tools. This course has been approved for 3.5 hours continued education credit for Certified Floodplain Managers.

Tara Lanzrath from the State of Kansas will provide instruction. Attend this seminar to learn:

- Website Resources for Floodplain Data.
 - ✓ Includes testing the new Base Flood Elevation (BFE) Portal.
- Using ArcMap to set up your DFIRM, LiDAR, and Flood Risk Products.
 - ✓ Includes how to connect to State GIS Services.
- Determining Base Flood Elevations.
- An overview of the various GIS resources found online.

Please use the attached form to register for this training. This class is free with KAFM Conference registration. Class size is limited to 15 and will be on a first come basis. A laptop with ArcMap 10.x installed is required. The 3D Analyst and Spatial Analyst Extensions are highly recommended. An agenda and survey will be sent out prior to the class. Please direct questions and registration forms to:
