

2026 KANSAS ASSOCIATION FOR FLOODPLAIN MANAGEMENT CONFERENCE

CALL FOR ABSTRACTS

2026 KAFM Conference, September 2-3 in Lawrence

The Kansas Association for Floodplain Management (KAFM) invites professionals, practitioners, and subject matter experts to submit abstracts for presentation at our upcoming Annual Conference. This event brings together floodplain managers, engineers, planners, emergency managers, and policy leaders from across Kansas and the Midwest to share knowledge, lessons learned, and innovative approaches to flood risk management.

We welcome and encourage presentations on a wide range of floodplain management and water resources topics, including but not limited to:

- *Flood hazard mitigation and risk reduction strategies*
- *Stormwater management and watershed planning*
 - *Flood mapping, modeling, and data analysis*
 - *Post-disaster recovery and resilience planning*
- *Levee systems, dam safety, and infrastructure protection*
- *Community engagement, outreach, and risk communication*
- *Case studies and lessons learned from past experiences*
- *Emerging technologies (e.g., drones, LiDAR, AI applications)*
 - *Nature-based solutions and green infrastructure*
 - *Capital improvement planning*

SUBMIT YOUR ABSTRACT VIA:
